Winter is the time of repairs and projects, hours in the garage fettling and tinkering. Tinker faster with an updated VT46 Rotating T-Driver - its rotating anodised handle allows it to be simultaneously steadied and spun. The handle also slides up and down the shaft, clicking into the required position, making it easier to hold the driver at the best angle for the job. The Venhill VT46 Rotating T-Driver retails for £21.94.
