

# QWART Phoenix & Hemi

Phoenix and Hemi helmets can possibly be customised with all accessories from the **QWARTalternatives** range. You can also place special requests as Custom models or «montage à la carte» on [qwartlab.com](http://qwartlab.com)  
 Phoenix & Hemi Std users could customise their helmet with a visor (tinted or clear) which is available as an option. On the other hand, customers who decided on a Slick model without any clipping system for a visor should consider the Qwart Leismo goggles (see below).

**PhoenixStd**  
Matte Carbon

**PhoenixStd**

## QWART Leismo

The Leismo ultra light motorcycle goggles will fit your Qwart helmet perfectly thanks to a slick design. The frameless lens comes with both anti fog & anti scratch lamination and provides a large field of vision. A triple-density foam also offers maximum comfort. The Leismo strap (no need to adjust it, it's been designed for QWART helmets) comes with perforated leather pads on each side and a Silicone coating to prevent any sliding of the strap when the goggles are in position.

**Leismo Smoke** / Black Leather

**Leismo Mirror** / Brown Leather

**Leismo Revo** / White Leather

# DO IT YOURSELF

One of the unique features of Qwart helmets is the high level of customisation that they offer.

Qwart gives you the option of choosing which finish your Phoenix or Hemi helmet has, both when you initially purchase it and right throughout its lifetime.

Their modular design also makes it easy to update our Qwart helmets as the seasons change or to reflect your changing tastes.

## SPECS/ANATOMY

Before personalizing your helmet, we recommend you familiarise yourself with all its specifications prior to purchase. Please inquire at your Qwart retailer.
